SP INDUSTRIES ADDS NEW SALES POSITION

HOPKINS, MI AUGUST 2, 2007: SP Industries, Inc. has hired J. Steve Ellingboe as its new central region sales manager. Mr. Ellingboe brings with him over 20 years of waste industry experience to help customers realize the benefits of high density compaction and the lowest overall operating costs of waste handling equipment. Steve will be servicing the heartland of the United States based from his home in Buhler, Kansas.

SP Industries, Inc. was formed in 1982 by several experienced sales, design, and fabrication specialists. Their goal was, and still is, to meet the increasing need for waste handling equipment that specialize in meeting individual business needs. Primarily a manufacturer of compactors and cart dumpers, SP Industries, Inc. has carved out a niche of high density compaction and specialty systems designed specifically for each

application. Systems for dewatering, oil collection, scrap metal collection, product destruction, recycling, and creating the lowest overall operating costs for waste, material, and recycling handling have been the hallmark of the 25 year old company.

For more information on the machines that SP Industries, Inc. builds, visit their website at www.sp-industries.com or call the marketing department at 1-800-592-5959.
